

Biography Fulu Miziki

Fulu Miziki Kolektiv is an Eco-Friendly-Afro-futuristic-Punk-Assemble collective of artists who comes straight from a future where humans have reconciled with mother earth and with themselves. This multidisciplinary collective of artists is based in the heart of African, in the Congolese capital city Kinshasa. For several years now, it's members have spent an amount of time conceptualizing an orchestra made from objects found in the trash, constantly changing instruments, always in search of new sounds.

Making their own instruments, performance costumes, and mask is essential to the approach of Fulu Miziki Kolektiv's musical core ideology. Their unique sound supports a pan-African message of artistic liberation, peace and a severe look at the ecological situation of the Democratic Republic of Congo and the whole world. For Fulu everything can be recovered and re-enchanted.
